

Mobile Liquid Feeding System Feeding Trolley

- ✓ dosing
- ✓ mixing
- ✓ smooth running due to solid rubber wheels
- ✓ flexible dosing speed

- Supplementary feeding with piglet milk in separate feed trays in the farrowing pen
- Supplementary feeding of pulpy prestarter in farrowing and rearing pens
- Easy feeding of any kind of special feed in trough or feed bowl

Technical design:

- Agitaor 230 V - 0,37 kW, top bearing
- Shaft and stirring blade made of stainless steel
- Rotary pump 230 V - 0,6 kW, with optimized impeller
- One-handed discharge via ergonomic dosing pistol with spring-loaded ball valve
- Discharge speed free selectable via infinitely adjustable transfer function
- Swivelling, self-retracting cable drum with 25 m cable

Container, frame, chassis:

- Made of stainless steel
- Dimension 95 x 65 x 115 cm (LxWxH) (+ cable drum)
- Pointed cone mixing container, 100 litres of content, empties completely without residue
- Mixing container with V2A lid half-opened with additional, screwed protective grille for dosing in accordance with the regulations of the Employer's Liability Insurance Association (reach-in protection)
- 2 solid rubber wheels (d=250 mm) for good running properties at the front
- 2 swivel castors (d=125 mm) with parking brake at the rear
